# IETLAA Newsletter June 2009

IETian,

Let me start the mail with a big Congratulation to all of us. It took 25 long years, but finally we got it on 25 May 2009 !

31st May was a splendid effort put together by the current students and of course the Alumni. The gathering laid to foundation of the most important IETLAA and the Committee to mentor it. We also launched our official website [www.ietalumni.org](http://www.ietalumni.org) on that very day.

Members have started registering on the website and as on 15 June 2009 we almost had 200 registrations.

As prescribed by the Executive committee we should target around 2000 registration in the first working year. This target seems to be a very nominal one, but without our sincere efforts this cannot be achieved. We need to come forward with an action plan to maximize the registrations.

Please spread the awareness among your friends, to visit and register on the website as soon as possible. We may have to knock every door, send scraps/SMS/emails to each of the person's, but we have to do it. We have to do it for our own better and for our own bright future.

Enough Enough !!

I have been complaining and very demanding as of now, so now let me take you for a walk...

Since the day we launched, we developers are pushing hard to add new features to the website. But I am sorry to say that the pace is snail slow. We are really short of developers and it is hurting us hard. As of now all the working people are part of the core development team and they are putting their best.

Here again I urge you all to nominate yourself or your juniors to come forward and help us. We have a heap of ideas but very few coders to code.

Anyways we have managed to add few features .

### # REGISTRATION STATUS MONITORING TOOL

With the help of this tool you can see the number of person registered in each of the passed years and also your see their short profile once your click on the links.The tool is totally dynamic in nature and is very useful to track a person out of 5000 strong alumni base.

### # ALUMNI WORLD MAP

This is a state of an art application, developed by our most renounced coder( No special prize for guessing his name :-) ).With the help of this application , you can see the spread of the alumni over the globe.You can also zoom in to see the appropriate location on the map.Thanks google for developing for such precise satellite pictures.So go ahead and play with it.

### # CONTRIBUTOR MASTER LIST

A list of all the major contributors, who came forward and donated for the IETLAA fund. Very soon we will be launching online transfer facility on the website, so all the people who still have not contributed can show their power :-)

### # GROUPS AND COMMUNITIES

A massive list of all the groups and orkut communities linked to IET. We tried to located every possible one available on the internet , but possibly we may have missed many.So go ahead and locate your group and community and start spamming :-). You can always mail us , if you want to add something to that list.

### # NA JAA..

Our own nostalgic video is now on own Official Website.The video that has the power to bring tears to our eyes.The power to bring out that 22 year old IETian out of 50 year old father of two.Yes we now it is on our website.Also you can see its Recapitulated version which is even better than the original one.So what are you waiting for, go hit the page.Do make a visit to its official website to salute all the team which did it for us.

### #HONORARY MEMBERS LIST AND CONSTITUTION

An association is never complete without a strong constitution and endless list of people behind the association.We have tried to salute them with a special mention on the website.

Thats not all , we will be coming up with lot many features in the near future.Do make routine visit to the site and spread the awareness.

I cannot help myself from writing this :- " India has just crashed out of the T20 World Cup :-(" "

Keep smiling and keep growing.

Regards  
Admin
